

WIDEX SUPER™

THE POWER TO HEAR

WIDEX SUPER

COLORS

Super Power that lasts!

WIDEX SUPER™ is a discreet receiver-in-the-ear super power hearing aid for people with severe to profound hearing loss. If you are looking for powerful performance and super sound quality at home, at work, in busy restaurants, listening to music, radio or the TV, or having conversations on the phone, then SUPER should be your choice.

SUPER works to help you hear speech clearly and naturally without distortion. It can also help you when sounds are coming from the front or the back and can even give access to sounds you may not have heard before.*

And SUPER is so efficiently designed, it uses a 675 battery that can last up to three weeks and is very easy for you to handle!

Power to the people

With WIDEX SUPER, you get a powerful, real-world listening experience. Being able to hear speech and having conversations in-person or on the phone is of course essential. But in order to obtain a complete sound picture, SUPER works to also help you hear a wide variety of other sounds you may encounter in your daily life.

What you get

A small, comfortable, weather-resistant and stylish hearing aid that provides exceptional clarity while giving you the super power you need.

HOW IT **SOUNDS**

For many people with severe to profound hearing loss, it is very difficult to determine the direction of sound if someone is approaching from the front or behind.

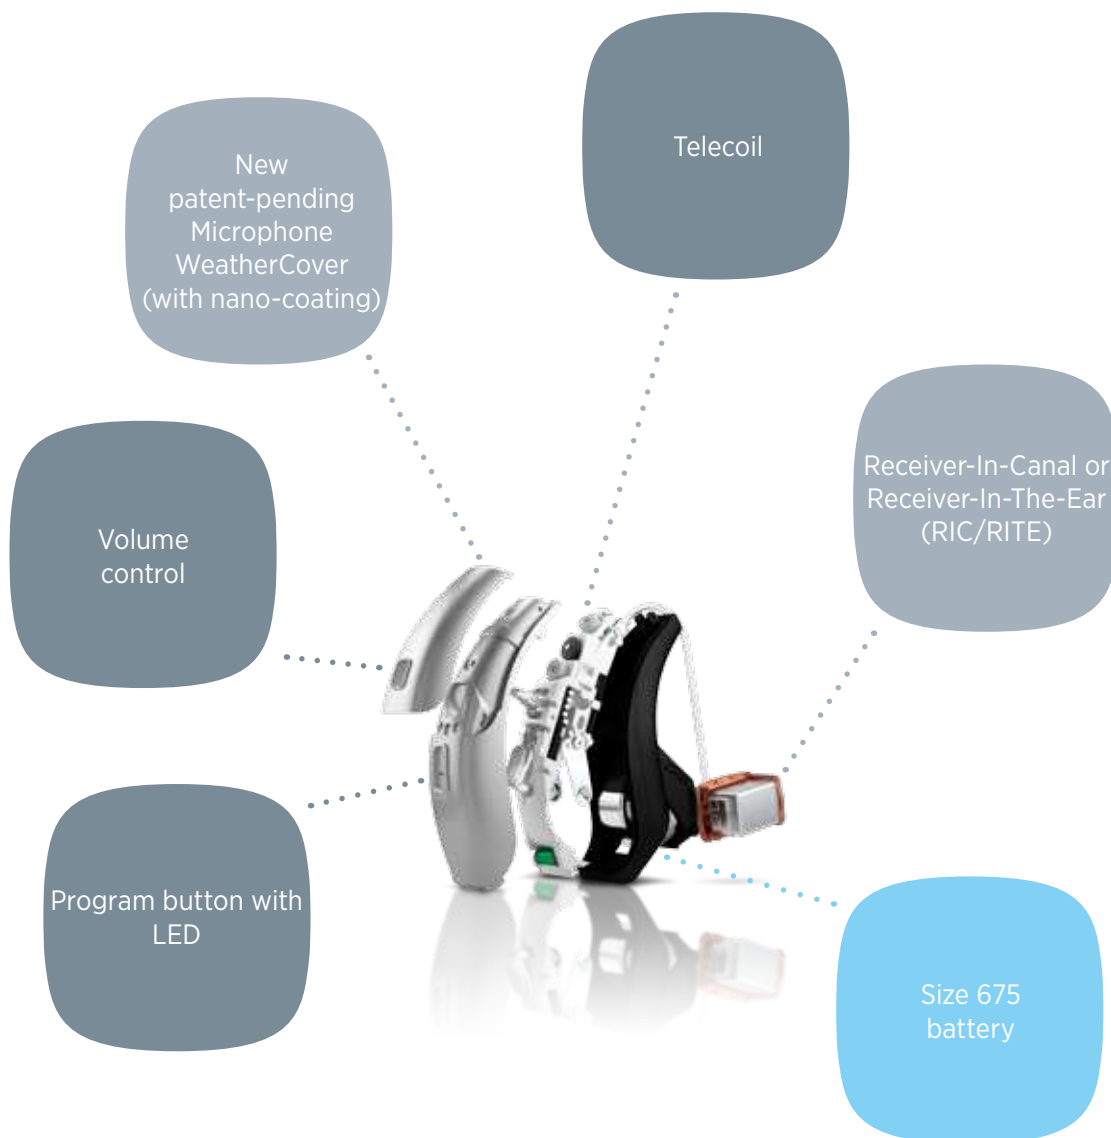

Now, for the first time in a hearing aid of this type, SUPER gives you the possibility of identifying where sounds are coming from. It amplifies sounds in the range where your hearing is best.

Hear more

More power does not always provide more hearing. That's why with SUPER, we have concentrated on audibility – giving you access to sounds that you may not have heard before. For example, SUPER features the Audibility Extender. This doesn't just compress sounds but actually moves high-pitched sounds such as birds chirping and children's voices down to where you can hear them.

WHAT IT **LOOKS** LIKE

THE **BENEFITS** ARE SUPER

Do you have difficulty listening to conversations?

SUPER helps provide exceptional hearing of soft and distant speech – and excellent hearing in quiet and difficult listening situations, like restaurants.

Do you have trouble hearing on the phone?

SUPER hearing aids offer a helpful feature called Phone+ that transmits phone signals wirelessly between the hearing aids you are wearing. This means you can hold either a cell phone or a landline phone up to one ear and listen to the conversation in BOTH ears!

Can you wear your SUPER hearing aids in bad weather?

If you are dependent on your hearing aids, then it's not good if you have to take them on and off all the time. SUPER is designed to be weather-resistant, meaning you can use it all day long.

The microphones inside the hearing aid are also protected from moisture and wind noise.

Do you have trouble hearing in the classroom?

There is a SUPER model with the option of an FM receiver so you can easily use it in places like classrooms or when listening to lectures.

Does it offer long battery life?

Even though it is small, SUPER has room for a long-life 675 battery so you can enjoy more power for up to three weeks – without worrying about your hearing being interrupted.

Does SUPER contain a feature that shows promise as a sound therapy tool for the ringing in your ears called tinnitus?

Yes! For the 50 million Americans who suffer from tinnitus, SUPER offers a Widex-only patented InterEar program called Zen, for relaxation and tinnitus management where the hearing aids play soothing harmonic tones and chimes if/when desired*.

Indications for Use: The ZEN Program is intended to provide a relaxing sound background for adults (21 years and older) who desire to listen to such a background in quiet. It may be used as a sound therapy tool in a tinnitus treatment program that is prescribed by a licensed hearing healthcare professional (audiologists, hearing aid specialists, otolaryngologists) who is trained in tinnitus management.
